TECHNICAL DETAILS

OPERATION

Button by hand; sensor with either fixed mount

POWER

Rechargeable 12 V power bank

JAWS

2 mm stainless steel

BUILD

Water-resistant working design

APPLICATION

Lobster claw rubber banding

MOUNTING OPTIONS

Handheld, horizontal base station or sensor wall bracket

THREE WAYS TO USE IT

01 / HANDHELD

Hold the tool and press its button to open the jaws.

02 / BASE STATION

Fix to a horizontal surface; the end sensor opens the jaws.

03 / WALL BRACKET

Fix to a wall or panel; the end sensor opens the jaws.

ON THE WATER

Choose handheld control or hands-free jaw opening with either optional mount. The tool reduces repetitive gripping during high-volume banding.

Performance figures are maxima and vary with conditions; base station and wall bracket sold separately.
